### THE INVENTED IMAGE

**Course A: 22.7.-26.7., Course B: 29.7.-2.8.2019**

**Venue: Workshops of riesa efau**

The workshop deals with reality, illusion and fantasy in photography. We put our attention to the relationship between subject and its image which we also want to examine as an independent work away from being a sole representation. Besides technical terms such as image formation, colour or means of presentation we especially want to discuss ideas of staging, dramatics, exaggeration and fiction. It's not about what particular things, places or persons really are, but what they can be as subjects of our personal perspective. In a playful and experimental way we will take pictures that get close to our imagination rather than to reality. [s-krauth.de](http://s-krauth.de)
