§ 32

1. The decision to transfer is made, at the student's request, by the dean after consulting the student's documentation of the course of study, artistic and design works, and after obtaining the opinion of the committee appointed by him/her for this purpose. The dean specifies for which year the student may be admitted. 2. The dean may agree to study according to the Individual Study Organization in the case of:
 - 1) studying in two or more fields of study;
 - 2) studying additional subjects over the current education program;
 - 3) participation in artistic, design or research works;
 - 4) studying at universities other than home university located in the country or abroad;
 - 5) raising children under 14 years of age;
 - 6) difficult family and health situations or disability status;
 - 7) providing care for a disabled or sick person in documented random cases;
 - 8) pregnancy;
 - 9) severe disability;
 - 10) other random cases.

§ 37

1. The Individual Study Organization involves setting individual deadlines for the implementation of obligations arising from the study program and individual study schedule (timetable), i.e. determining the semesters in which individual credits, examinations and professional practices apply.

2. The dean shall each time determine the rules and mode of the Individual Study Organization in the semester system, for a period not longer than an academic year.
3. 5. The written arrangements resulting from para. 1-3 are prepared in duplicate, one of which serves the student as the basis for carrying out the study plan according to the set course, and the other is in the student's files.

§ 38

1. ECTS credits are assigned to classes completed by the student resulting from the education program.
2. All subjects offered by the Academy within the framework of study plans have assigned ECTS credits.
3. The classes offered by the Academy may also include trainings and courses that do not have assigned ECTS credits.
4. The number of ECTS credits assigned to the subjects is approved at the faculty.
5. The right to participate in classes may be limited by the conditions resulting from the specific module of classes related to the size of groups in the case of elective courses.
6. The completion of full-time and part-time studies in a given field of study allows to obtain the same learning outcomes.
7. The period of first-cycle studies and second-cycle studies as well as long-cycle studies shall include the student's professional practice, if it is included in the study program.

§ 39

1. The periods to be credited are the semester and year of study, in accordance with the study program and study plan.

2. The dates of the examination sessions are set by the academic calendar.
3. The final date for obtaining credits and submission of all examinations as well as detailed arrangements regarding sessions are determined by order of the Vice-Rector .
4. The session schedule for a given field of study is established by the dean in an ordinance mode and is announced 14 days before the start of the session.

§ 40

1. Each student is required to confirm the entry for a semester.
2. Confirmation of entry for a semester shall be made in electronic form or in paper form signed and submitted to the dean's office.

4. The final decision about admitting a student to the elective studio belongs to a lecturer.
5. In case of taking classes outside the study program, a student must submit a written request to the dean in accordance with § 16 item 5.
6. A student is required to undergo classes, obtain credits and pass examinations in all subjects that he/she has declared in a given semester (both subjects arising from the study program and additional subjects). Credits and examinations take place on the principles determined in the syllabuses of subjects.

§ 41

1. Classes in a given semester/year end with:
 - 1) examination or
 - 2) credit with a grade or
 - 3) credit.
2. The Academy has the following scale of grades:
 - 1) numeric, in which the lowest passing grade is sufficient (3.0).
 - a) excellent 5,5 - A
 - b) very good 5,0 - B
 - c) good 4,5 - C
 - d) satisfactory 4,0 - C
 - e) sufficient 3,5 - E
 - f) sufficient 3,0 - E
 - g) fail 2,0 - F

Letter symbols denote ECTS grades;

- 2) descriptive

- a) passed,
 - b) not passed.
3. Grades 2.0/F are unsatisfactory, for which a student does not receive ECTS credits assigned to the subject.
 4. The scale of grades referred to in para. 1. point 1 shall apply as follows:
 - 1) in the case of an examination (numerical scale of grades),
 - 2) in the case of a credit with a grade (numerical scale of grades),
 - 3) in the case of a credit without a grade (descriptive scale of grades).
 5. Grade average is the arithmetic average of numerical grades from all semesters. The grade average taken into account are the grades for subjects from the study plan.
 6. The entry to the examination reports is made by academic staff conducting the given subject.
 7. The type of credit for a given subject defines the study program for a given field of study, and its syllabus contains detailed criteria.
 8. A student is informed about the results of examinations and credits directly by the person who verifies the progress of a student or academic staff.
 9. A student is informed about the results of the examinations on an individual account in the virtual dean's office. A student is obliged to verify the correctness of entries, in case of doubt, shall immediately report to a lecturer.

§ 42

Completion of the course - examination session

1. Credit with a grade or credit is given by a lecturer in a given subject, provided for in the study program. Credits are made on the basis of the student's work during the whole semester - class attendance, implementation of projects, review of work, exercises, colloquia, evaluation of student activity and on the basis of individually set conditions in a syllabus.
2. The person conducting the classes is obliged to provide - at the beginning of the semester – the conditions for obtaining credits for classes to the students.
3. Credits, credits with a grade and subjects ending with an examination take place at the last class in the semester or on the date set by a lecturer, but not later than by the end of the examination session. The credit cannot take the form of an examination and may take the form of a numerical grade (credit with a grade) on a scale of 2.0 to 5.5 or descriptive (credit without a grade).
4. In the case of students for whom the Individual Study Program or the Individual Study Organization has been applied, the condition of receiving passing grades in a subject, semester or year is passing all examinations included in the individual study plan and individual study schedule.

5. In individual cases, a student has the right to apply for a credit date/s before the session. Therefore, a written request shall be submitted to the dean, approved by the person conducting the subject, specifying the proposed date of the session. The request shall be submitted to the dean no later than 14 days before the proposed date of the examination session. In this case, the grade will be entered in the report by a lecturer during the examination session within the time limit set by the academic calendar.

§ 43

1. In individual cases, the dean may agree to postpone the examination session in one or more subjects at the student's request. The possibility of postponing the session applies to subjects passed as an exam. The request shall be approved by a lecturer and submitted no later than seven days before the start of the session. Postponing the session means taking the examination until the end of the retake after agreeing the date with a lecturer. In case of postponing the session, a student is not entitled to the retake.
2. The date of credit/credits may be postponed by the dean on the basis of sick leave or other documented random accidents. A written request in this matter shall be submitted to the dean immediately after the occurrence of the event, not later than by the end of the semester. In such a situation, the credits and the basic examination session may be postponed to an extended session, which lasts like the retake in accordance with the dates specified in the academic calendar for a given year.
3. Failure to appear on the credit meeting within the prescribed period results in the note "N" in the report, meaning "absent". The absence shall be excused by a student to the lecturer. Before submitting the original exemption along with the request, a student is obliged to immediately notify the dean's office about the exemption by e-mail. If a sick leave or certificate confirming a random accident is not delivered to the dean's office within 3 days from the set date of the credit, it results in the grade "failed"- in the case of passing without grade or a fail grade (2.0) - in case of credit with a grade.

§ 44

1. The lowest grade, if passed, is satisfactory (3.0). If a student obtains the "fail" grade (2.0) as the credit, it results in not receiving a passing grade in the subject. In this case, do not enter "not passed" and only the grade 2.0 – numerical, because the grade qualifies a student for the retake.

2. A student who fails to obtain a pass in the subject ending with the examination is not admitted to the examination in this subject, which results in 'not passed' grade in the report. In this case, the student is not entitled to the examination in both the basic and the retake session in this subject. After the examination session, the examiner enters in the examination protocol a fail grade (2.0), which results in failing the semester. The student has the right to pass other examinations.
3. A student who has not obtained a credit or credit with a grade from one subject that does not end with the examination may apply for a conditional entry. In the event of a failure to obtain credit for the subject ending in the examination, the student shall not be entitled to a conditional entry.
4. A student who has not obtained a credit or a credit with a grade results in a lack of right to take part in the retake session and it means that a student shall repeat the subject. Repeating classes in a subject by participating in them again is payable.
5. The student who did not receive a passing grade in two or more subjects ending with the examination is removed from the students' list.

§ 45

Semester examinations

1. The condition of taking the examination is obtaining a credit for the subject ending with this form of credit.
2. Examinations are taken during the examination session. The number of examinations taken by a student under the study plan shall not exceed eight in the entire academic year.
3. The examination is a verification of learning outcomes, i.e. knowledge, skills and competences of a student acquired during the course. The examination ends with a grade.
4. The examination in the subject envisaged in the study plan takes place with a lecturer in the form of his/her choice, i.e. written or oral or review of artistic and design works.
5. In the examination session two dates are set: the basic date and the retake date. The student can enter the retake only if he/she receives a maximum of two fail grades in the basic session of subjects ending with the examination. As part of the retake, the student only takes the examinations. The date of the examination is set by a lecturer.
6. Disabled students may apply for adapting the form and dates of credits and examinations to their needs, resulting from the type of disability. At the reasoned request of a disabled student, the dean, in consultation with a lecturer, will designate an alternative method of passing the examinations in the subject.

7. Sign language interpreters, as well as assistants for persons with physical disabilities and the blind may participate in the examinations. Persons helping disabled students shall have the dean's permission to participate in examinations. A lecturer has the right to refuse the participation of an assistant of a disabled person in the examination if it is a person who is substantively or professionally associated with the subject from which the student is taking the examination.

§ 46

1. In individual cases, a student has the right to apply for the examination date before the session. Therefore, a written request must be submitted to the dean, which must contain the examiner's consent and the examination date proposed by him/her. The request shall be submitted to the dean no later than 7 days before the start of the examination session. In this case, the grade will be entered in the report by a lecturer during the examination session within the time limit set by the academic calendar.
2. Failure to appear at the examination within the prescribed period results in annotation "N" in the report meaning "absent". The absence shall be excused by a student. If a sick leave is delivered to the dean together with a written request, a student may apply for the examination to be postponed to an extended session, which lasts like the retake in accordance with the dates specified in the academic calendar for the given year. Before submitting the original exemption along with the request, a student is obliged to immediately notify the dean's office of the exemption by e-mail.
3. In the event of no excuse of being provided to the dean within 3 days from the date of the examination, a lecturer shall enter a fail grade in the report.

§ 47

Completion of the semester and year

1. The condition of receiving a passing grade in a semester is meeting all the requirements (receiving passing grades for all obligatory subjects) specified in the study program for a given semester, obtaining 30 ECTS credits.
2. A student is also required to pass chosen electives if, during the registration for the semester, he/she declared the choice of additional subjects.
3. The basis for receiving a passing grade for a semester to a student who is directed to study abroad or to another Polish university is the student's compliance with the conditions stipulated in the Learning Agreement.
4. Getting a semester credit is a condition of enrollment in the next semester of studies.

5. The dean may grant conditional permission to study in the next semester, if the admissible deficit of ECTS credits resulting from failure to complete some subjects does not exceed the following values:
 - 1) for first-cycle studies: 2 ECTS credits from the second to the fourth semester,
 - 2) for second-cycle studies: 2 ECTS credits from the second to the third semester,
 - 3) for long-cycle studies: 2 ECTS credits from the second to the eighth semester.
6. In relation to the student who did not receive a passing grade in a semester, the dean decides about:
 - 1) conditional entry for the next semester/year of study,
 - 2) permission to repeat the semester/year of study,
 - 3) removal from the students' list.
7. The student who has received the dean's consent for conditional completion of a semester is obliged to repeat the subject at the earliest possible date. The subject is repeated at the student's request after paying the fee set in the price list for the given year of study.
8. Examination grades are entered into electronic reports by academic staff conducting the exam. In exceptional circumstances, in the event of a long absence of a lecturer, at the student's request, the grade may be entered by the dean.

§ 48

Failure to complete the semester, repetition

1. The student who has not met the conditions for passing the semester may request the semester to be repeated.
2. A student, at his/her written request, may apply for permission to repeat the semester if a student:
 - 1) did not obtain credit for one or more subjects not ending with an examination and not falling in the deficit of ECTS credits (credit without a grade); or
 - 2) did not obtain credit for one subject ending with an exam, which is outside the limit of ECTS credits
3. A written request to the dean shall be submitted within 7 days of the end of the retake.
4. Credits and positive grades remain in force.
5. The student who repeats a semester may apply for:
 - 1) repetition of subjects or
 - 2) repetition of subjects and receiving a passing grade for chosen subjects in advance included in the program of the next semester.

6. Decision on the matters referred to in sec. 5 is undertaken by the dean, taking into account the type and reasons of backlog.
7. A student may repeat a semester only in the appropriate semester, winter or summer. The student who repeats the summer semester is required to register for the semester within 14 days of starting classes. Failure to register is considered as failure to study and constitutes the basis for removal from the students' list.

§ 49

1. It is not allowed to repeat the first year of long-cycle studies and the first year of first and second cycle studies, subject to sec. 2.
2. In exceptional cases, the Rector may agree to repeat the first year of studies by a student, if failure to complete the first or second semester is caused and documented by the student's long-term illness or other serious random circumstances. Such consent may be obtained by a student no more than once during the period of study at a given level of education.
3. The student who repeats a year or a semester loses the right to receive material assistance from the Academy, except in cases specified in the Regulations on granting material assistance to students.
4. The student leaving the Academy is obliged to fulfill all obligations towards the Academy and settle them with a clearance slip.

§ 50

Examination Commission

1. The dean convenes the examination commission at the student's request, who raises reasonable reservations as to the impartiality, form, procedure or course of the examination. This request must be submitted within 3 days of the date of the retake announcement. The date of the examination commission may not be later than 14 days from the date of submitting the request. Information about the date of the examination commission is announced to a student at least three days before that date.
2. The student takes the examination commission with the same work that he/she presented at the previous examination. In the event of a fail grade in the retake and when a student applies for the examination commission, a lecturer is required to secure the work. The examination commission, in oral or written form, or in the form of a review of works, is carried out by a committee appointed by the dean.
3. The committee conducting the examination commission consists of:

5. The dean's leave postpones the date of planned completion of studies. This does not apply to short-term leave.
6. Leave may be granted only during the course of studies, i.e. until the final semester has been completed.
7. Granting leave is recorded in the documentation of the education cycle.
8. A student may apply for a break in studies. The break is granted at the student's written request for a maximum of two years and may not exceed four semesters. The decision to grant it is made by the dean.

9. Students returning to study after a break take them on the principles stipulated in and continue according to the program in force on the date of return to study. The student not registered for the semester after the expiration of consent for a break in studies is removed from the students' list.

10. The break in studies is recorded in the documentation of the education cycle and is not included in the duration of studies.
